# 1. Introduction and Purpose

These .Storage Launch Policies (“Policies”) describe the rules that govern the launch of the .Storage Top-Level Domain (the “TLD”) by XYZ.COM LLC (“Registry Operator,” “Registry,” “we” “us” or “RO”). The launch and continued operation of the TLD is governed by the XYZ Domain Name Policies which are separate from, but should be read together with these Policies, and can be found at <http://nic.storage>. This document will proscribe certain protections to the various entities described in this document, comply with ICANN’s requirements for the TLD, and will describe how domain names will be allocated to various types of domain name Applicants.

The launch of the TLD will consist of a series of launch periods, each of which is described in this document. Specific information and requirements for those wishing to participate in the launch of the TLD are detailed in relation to each of those periods.

ICANN requires that the Registry Operator, in the management of the TLD, implement certain Rights Protection Mechanisms (often referred to as RPMs) to discourage or prevent registration of domain names that violate or abuse another party’s legal rights. Rights Protection Mechanisms may exist in different forms dependent on the stage or period of operation of the TLD. Some Rights Protection Mechanisms exist for a defined period of time, while others may subsist or become active as a result of certain conditions. Details about ICANN’s requirements for Rights Protection Mechanisms can be found on the ICANN website at the following link: <http://newgTLD.icann.org/en/about/trademark-clearinghouse>.

ICANN has established the Trademark Clearinghouse and associated processes and procedures so that the Registry Operator can comply with its obligation to implement Rights Protection Mechanisms.

ICANN has appointed third-party providers, the TMCH Sunrise and Claims Operator(s) (both defined below), to operate the Trademark Clearinghouse (defined below). Registry Operator's implementation of the Service (defined below) has been integrated and tested with the TMCH Sunrise and Claims Operator. Information about the Trademark Clearinghouse and the TMCH Sunrise and Claims Operator can be found at the following link <http://trademark-clearinghouse.com/>.

Where applicable, the Registry Operator's role is to verify the information provided by a Registrar to the Registry Operator, with that information that is contained in the Trademark Clearinghouse. The Registry Operator does not make any decisions about the validity or use of a mark or its inclusion in the Trademark Clearinghouse

These Policies apply to:

- Persons or entities submitting an Application;
- Registrants; and
- Registrars.

## 2. Previous Launch Periods

The TLD was originally launched with a Founders Program Period (April 1, 2016 - August 30, 2016), a Trademark Sunrise Period (July 5, 2016 - August 30, 2016) and a Storage Industry Phase (September 6, 2016 - January 3, 2017). The policies describe the launch period after January 3, 2017, which will consist of two new launch periods followed by the general availability of domain names in the TLD. All registrations from the previous launch periods prior to January 3, 2017 remain in full force and effect.

## 3. Summary of New Launch Periods

Look to the Registry Website for specific dates and times.

Launch Phase	Timeframe*	Description
Trademark Holder Landrush	See Registry Website	Directed at trademark holders, but open to all registrants on a first-come, first-serve basis. See below for more details. Special pricing applies.
Early Access Period	Begins after the end of the Trademark Holder Landrush.	Anyone can register any available name on a first-come, first-serve basis. Prices vary depending on the day, beginning higher and gradually lowering. See the section of these Policies on the Early Access Period for more details.
General Availability	Begins after the end of the Early Access Period and continues perpetually.	Anyone can register any available name on a first-come, first-serve basis. Regular pricing applies.

*\*Timeframes are subject to modification. See the Registry Website for more details.*

## 4. Trademark Holder Landrush

### 4.1 In General

The Trademark Holder Landrush is intended to allow trademark holders that missed their opportunity to register during the original July 5, 2016 - August 30, 2016 Trademark Sunrise Period a new chance to register their marks. However, this period is available to all registrants and there are no period-specific restrictions on which registrant can register which names. Registrations are on a first-come, first-serve basis. Accordingly, we recommend trademark holders register their names quickly during this period.

## **4.2 Eligible Applicants**

Any person or organization can register a Domain Name during the Trademark Holder Landrush.

## **4.3 Duration**

Final dates and times will be posted at the Registry's website.

## **4.4 Available Trademark Holder Landrush Registration Periods**

Trademark Holder Landrush registrations may be purchased in yearly increments of no less than one (1) year and no more than ten (10) years, commencing on the date on which the Domain Name is registered. Unless otherwise terminated, such registration will expire on the same day of the month the registration was created, unless it was created on February 29, in which case it will expire on March 1.

## **4.5 Miscellaneous**

Claims Services will be in effect during the entire duration of the Trademark Holder Landrush. As such, an Applicant must acknowledge and accept the information contained within any Claims Notice that may be presented before processing of the Application.

# **5. Early Access Period**

## **5.1 In General**

The Early Access Period is a seven (7) day period between the Trademark Holder Landrush and the general availability of the TLD. During this period, anyone can register any available domain name at the registration price for that particular day. As the seven-day period progresses, the prices for domain names will gradually decrease. Domains will be Allocated on a first-come, first-serve basis.

## **5.2 Eligible Applicants**

Any person or organization can register a Domain Name during the Early Access Period.

## **5.3 Duration**

The Early Access Period will last seven (7) Days. Final dates and times will be posted at the Registry's website.

## **5.4 Available Early Access Period Registration Periods**

Early Access Period registrations may be purchased in yearly increments of no less than one (1) year and no more than ten (10) years, commencing on the date on which the Domain Name is registered. Unless otherwise terminated, such registration will expire on the same day of the month the registration was created, unless it was created on February 29, in which case it will expire on March 1.

## **5.5 Miscellaneous**

Claims Services will be in effect during the entire duration of the Early Access Period. As such, an Applicant must acknowledge and accept the information contained within any Claims Notice

that may be presented before processing of the Application. See the Claims Period section of these policies for more information on Claims Services.

## 6. General Availability

Upon the commencement of General Availability, Available Names will be allocated via ICANN accredited registrars on a first-come, first-served basis subject to the Registry Policies and ICANN Requirements. The first ninety (90) days of the General Availability period will be part of the Claims Period. As such, an Applicant must acknowledge and accept the information contained within any Claims Notice that may be presented before processing of the Application. See the Claims Period section of these policies for more information on the Claims Period.

## 7. Claims Period

The Claims Period will operate for the first ninety (90) days of General Availability. Claims Services will be offered during this Period. Claims Services will also be offered during the Early Access Program.

Throughout the time when the Claims Services are offered, during the process of making an Application for a domain name, the Applicant will be notified (via a Claims Notice) if the applied for label is a Trademark Match to a Trademark Record in the Trademark Clearinghouse. Where that label is allocated, the Trademark Holder with the corresponding Trademark Record will be notified of such by the TMCH Sunrise and Claims Operator.

## 8. Modification of These Policies

Subject to all relevant contracts between Registry, Registrar and ICANN, Registry reserves the rights to modify these policies at its sole discretion with ninety (30) days prior notice posted on the Registry Website.
